Independent Auditor's Review Report on Condensed Interim Consolidated Financial Statements

To the shareholders of Arabian Contracting Services Company (A Saudi Joint Stock Company)

Introduction

We have reviewed the accompanying condensed interim consolidated statement of financial position of Arabian Contracting Services Company (the Company) and its subsidiaries (collectively referred to as the "Group") as at March 31, 2025 and the related condensed interim consolidated statements of comprehensive income, changes in equity and cash flows for the three-month period then ended, and other explanatory notes. Management is responsible for the preparation and presentation of these condensed interim consolidated financial statements in accordance with International Accounting Standard (34) "Interim Financial Reporting" (IAS 34) as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed interim consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements (2410) "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" as endorsed in the Kingdom of Saudi Arabia. A review of condensed interim consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED) (CONTINUED)

FOR THE THREE-MONTH PERIOD ENDED MARCH 31, 2025

2- BASIS OF PREPARATION

2-1 Statement of compliance

The Group's condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard (34) "Interim Financial Reporting" as endorsed in the Kingdom of Saudi Arabia, and other standards and pronouncements as endorsed by the Saudi Organization for Chartered and Professional Accountants (SOCPA).

These condensed interim consolidated financial statements do not include all the information and disclosures required for a complete set of consolidated financial statements prepared in accordance with International Financial Reporting Standards, and therefore they should be read in conjunction with the Group's consolidated financial statements for the year ended December 31, 2024. The results for the period are not an indication of the annual results of the Group.

2-2 Basis of measurement

The condensed interim consolidated financial statements have been prepared under historical cost basis except for what was described in the relevant material accounting policies information in the annual consolidated financial statements for the year ended December 31, 2024.

2-3 Functional and presentation currency

These condensed interim consolidated financial statements are presented in Saudi Riyal (SR), unless otherwise stated. The Saudi Riyal is the functional and presentation currency of the Group.

2-4 Devaluation of Egyptian currency

During the period ended March 31, 2025, the exchange rate of the Egyptian pound against the Saudi riyal remained stable without any significant decline (March 31, 2024: 53.6%).

2-5 Basis of consolidation

The condensed interim consolidated financial statements include the financial statements of the Group and entities controlled by the Company and its subsidiaries as at the reporting date.

Control is achieved when the Group:

- Has power over the investee:
- Is exposed, or has rights, to variable returns from its involvement with the investee; and
- Has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally.

The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- The size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders:
- Potential voting rights held by the Group, other vote holders or other parties;
- Rights arising from other contractual arrangements; and
- Any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous stakeholders' meetings.

The process of consolidating the financial statements of a subsidiary begins when the Group gains control over the subsidiary and ceases when the Group loses control of the subsidiary. In particular, the revenues and expenses of the subsidiary acquired, disposed of or sold during the period are included in the condensed interim consolidated statement of comprehensive income from the date the Group obtains control until the date that the Group ceases to control the subsidiary.

FOR THE THREE-MONTH PERIOD ENDED MARCH 31, 2025

2-BASIS OF PREPARATION (CONTINUED)

2-5 Basis of consolidation (continued)

A change in the ownership interest of a subsidiary, without a loss of control, is recorded in the condensed interim consolidated statement of changes in equity.

The condensed interim consolidated statement of comprehensive income and each component of condensed interim consolidated other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of the subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the condensed interim consolidated non-controlling interests having a deficit balance.

If the Group loses control over its subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interests and other components of equity, while any resultant gain or loss is recognized in the condensed interim consolidated statement of comprehensive income.

When necessary, adjustments are made to the financial statements of the subsidiaries to bring their material accounting policies information in line with the Group's material accounting policies information.

All intergroup assets and liabilities, equity, revenues, expenses and cash flows relating to transactions between members of the Group are eliminated upon consolidating the condensed interim financial statements.

The accompanying condensed interim consolidated financial statements include the accounts of the Company and its subsidiaries (collectively referred to as the "Group"). The details of these subsidiaries are as follows:

2-6 Business combination and goodwill

The acquisition method of accounting is used to account for the acquisition of subsidiaries. The cost of an acquisition is measured at fair value of the asset acquired or liabilities assumed as at the date of acquisition, plus costs directly attributable to the acquisition. The excess of the cost of acquisition over the fair value of the Group's share of the net identifiable assets acquired and liabilities assumed is recorded as goodwill. Goodwill is tested annually for impairment and carried at cost, net of impairment losses, if any. Acquisition-related costs are expensed as incurred and included in general and administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in the original contracts through the acquisition.

Any contingent consideration to be transferred by the acquirer is recognized at fair value at the acquisition date. All contingent consideration (except that which is classified as equity) is measured at fair value with the changes in fair value in the condensed interim consolidated statement of comprehensive income. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured as the excess of the purchase price over the fair value of the Group's share of the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed, and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in the condensed interim consolidated statement of comprehensive income as a bargain purchase gain.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units (CGUs) that are expected to benefit from the combination, irrespective of whether other assets or purchase commitments are assigned to those units.

Where goodwill has been allocated to a CGU and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in these circumstances is measured based on the relative values of the disposed operation and the portion of the CGU retained.
